Greenspace on your doorstep
Welcome to the second edition of “Greenspace on your doorstep”, our guide to places to walk in the Thames Basin Heaths area.

This 2019 edition has 62 entries. That’s 18 new listings since the 2017 edition! It’s all thanks to the great work of our local councils and their ground-breaking strategy to protect your local heathlands. Each entry has been set aside to give us additional places to get fresh air and exercise with the family or the dog. You’ll find them across Surrey, Hampshire & Berkshire, so we hope you enjoy discovering the ones on your own doorstep and perhaps further afield.

We don’t manage any of the places listed, but we work very closely with the local councils who do. So please let us know what you think, we love hearing from you. We’d be thrilled to include some of your photographs in the next edition or on our website, with due credit of course. So if you fancy a small piece of fame, do send us your photographs and we’ll include them. Ones of you and your family enjoying themselves, or the meadows in spring and summer, would be especially welcome. Please send them via Facebook, Twitter or email, and we’ll be delighted to hear from you!

A few things to bear in mind...

• Car parks listed offer at least 2 hours free parking. Most have poo bins, some even provide free poo bags.

• Postcodes aren’t useful if there’s no house near the entrance. We’ve given the nearest postcode, but recommend using websites like gridreferencefinder.com and streetmap.co.uk to lookup the Ordnance Survey grid reference locations.

• Distances given are typical walk lengths and not necessarily the longest walk possible.

• We’ve indicated where greenspaces look securely fenced, but we haven’t checked all fences and can’t say with certainty that it’s safe for dogs off lead. Please always use your judgement.
